

PLOT-950

OAK GROVE

We cannot report on this plot yet

The parcel is loaded at confidence 3, below the scoring floor of 4. Every score would be computed on ground we are not confident is the plot.

What is nearby

These distances are measured from the boundary we were given, and that boundary is the reason we cannot report on this plot. Treat them as the general area, not as measurements of your plot.

Main road	1 min walk	74 m away
Primary school	13 min walk	1.0 km away
Water point	13 min walk	1.1 km away
Mobile network mast	19 min walk	1.5 km away
Clinic	2 min drive	1.6 km away
Hospital	2 min drive	1.6 km away
Secondary school	3 min drive	2.2 km away
Tarmac road	4 min drive	2.9 km away
River (a limit on where you can build, not a convenience)	At or right beside the plot	boundary not confirmed

Straight-line distance to the nearest mapped feature, not road distance. Health facilities are recorded at the centre of their ward rather than at the building, so treat those as approximate.

Before you pay

1. Ask the seller for the mutation drawing

This is the surveyed drawing showing the plot boundary. Without it nobody can tell you what you are buying.

2. Do not pay a deposit until the size is confirmed

The boundary we were given does not close properly.

3. Ask the county where the river reserve runs

You cannot build inside it. A surveyor can mark it on the ground.

4. Ask neighbours how high the water came last season

Our flood reading is worked out from the shape of the land. It cannot see a blocked drain or a broken dike.

5. Confirm the boundary with a licensed surveyor

Our measurements come from maps, not from beacons on the ground.

6. Have your advocate do an official search at the Lands office

We do not check ownership, charges or disputes. Nothing in this report is a substitute for that search.

How we worked this out, and what this report is not

Everything here is measured from satellite images, terrain, rainfall records and public datasets. Nobody from our team has stood on this land. This is not a valuation and not a legal opinion. It does not confirm who owns the land or where its legal boundary runs. Flood risk is worked out from the shape of the land, not from flood records. It cannot see a broken dike or a blocked drain. Always visit the plot and use an advocate and a licensed surveyor before you pay any money.
