

TEST-KAKAMEGA-01

62 acres (our measurement) · Land cover validation

This plot is not for sale as far as we can tell

This parcel intersects a gazetted protected area. Land inside one is normally not saleable, so a score would invite a comparison that should never be made.

What is nearby

On the land itself: main road, river — these cross the plot rather than sitting near it.

Primary school	7 min walk	578 m away
Mobile network mast	9 min walk	718 m away
Secondary school	3 min drive	1.7 km away
Tarmac road	4 min drive	2.4 km away
Water point	4 min drive	2.9 km away
Clinic	7 min drive	4.5 km away
Hospital	25 min drive	16.5 km away

Straight-line distance to the nearest mapped feature, not road distance. Health facilities are recorded at the centre of their ward rather than at the building, so treat those as approximate.

Before you pay

- 1. Ask the seller for written proof this land can be sold**
Our data places it inside a protected area. Do not pay anything before you have seen this.
- 2. Ask the county where the river reserve runs**
You cannot build inside it. A surveyor can mark it on the ground.
- 3. Confirm the boundary with a licensed surveyor**
Our measurements come from maps, not from beacons on the ground.
- 4. Have your advocate do an official search at the Lands office**
We do not check ownership, charges or disputes. Nothing in this report is a substitute for that search.

How we worked this out, and what this report is not

Everything here is measured from satellite images, terrain, rainfall records and public datasets. Nobody from our team has stood on this land. This is not a valuation and not a legal opinion. It does not confirm who owns the land or where its legal boundary runs. Flood risk is worked out from the shape of the land, not from flood records. It cannot see a broken dike or a blocked drain. Always visit the plot and use an advocate and a licensed surveyor before you pay any money.
